

How Do I Access Data Exchange?

rdavis@foregenix.com - 2017-11-07 - Comments (0) - DataExchange

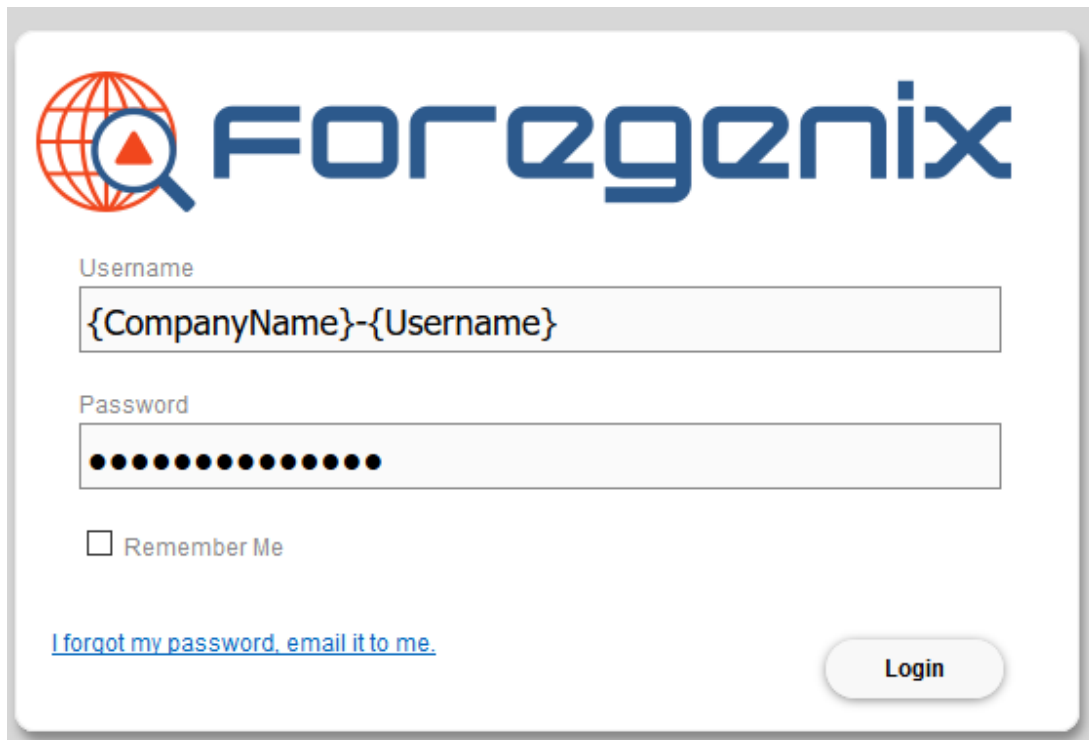

As part of the initial setup you will get an email containing your username as well as the link to our Data Exchange Portal, access is through a secure web portal and will require a modern browser to access it.

Access URL for DataExchange: <https://dataexchange.foregenix.com/>

Username: [CompanyName]-[Username]

Password: Is sent via a sperate channel.

When you access the webportal you will get prompted to logon and will see a screen simular to the one below:

The screenshot shows the Foregenix login interface. At the top left is the Foregenix logo, which consists of a red globe with a magnifying glass over it, followed by the word "FOREGENIX" in blue. Below the logo are two input fields: "Username" and "Password". The "Username" field contains the placeholder text "{CompanyName}-{Username}". The "Password" field is filled with black dots. Below the password field is a checkbox labeled "Remember Me". At the bottom left, there is a blue link that says "I forgot my password, email it to me.". At the bottom right, there is a rounded button labeled "Login".

If you did not get your password you have two options available to you.

1. Request a new password from our support team (support@foregenix.com), please allow 4-8 hours for the request to

be processed.

2. Use the self self service link to request a reset password, this method is often teh quickest and it will be sent to your email address if it has been registered on our system.
