How Do I Access Data Exchange?

rdavis@foregenix.com - 2017-11-07 - Comments (0) - DataExchange

As part of the initial setup you will get an email containing your username as well as the link to our Data Exchange Portal, access is through a secure web portal and will require a modern browser to access it.

Access URL for DataExchange: https://dataexchange.foregenix.com/
Username: [CompanyName]-[Username]
Password: Is sent via a sperate channel.

When you access the webportal you will get prompted to logon and will see a screen simular to the one below:

If you did not get your password you have two options available to you.

1. Request a new password from our support team (support@foregenix.com), please allow 4-8 hours for the request to

be processed.
2. Use the self self service link to request a reset password, this method is often teh quickest and it will be sent to your email address if it has been registered on our system.
