

## Oregon Authentication (Logging on)

Neville Ogilvie - 2022-10-13 - Comments (0) - Oregon

Foregenix Oregon allows authorization by multiple methods.

The most common method is a username and password. You would have been provided with your username by a contact at Foregenix. If this is the first time you are logging into Oregon and don't know your password you can click on the "Forgot Password?" link. This will take you through the steps of resetting your password.

### **Password Requirements:**

- **Minimum length 10 characters**
- **At least 1 special character**
- **At least 1 lower case character**
- **At least 1 upper case character**
- **At least 1 one number**
- **Cannot be any of your last 3 used passwords**

You can also use Google authentication to validate your username. You just need to click on the Google image at the bottom of the login block and complete authentication.

[Forgot Password?](#)

Sign In

Or sign in with

 Google

## Resetting your password

Enter username and click Submit

## Forgot Your Password?

Enter your email to reset your password.

Username or email

[« Back to Login](#)

Submit

You will receive an email with a link to reset password on the Foregenix Oregon Portal.

### Password reset request

Someone just requested to change your Foregenix Oregon account's credentials. If this was you, click on the link below to reset them.

[Click here to reset your password credentials](#)

This link will expire within the next 5 minutes.

If you don't want to reset your password credentials, just ignore this message and nothing will be changed.

Regards,  
The Foregenix Oregon team

Click on the link and you will see a page that requires you to setup a Mobile Authenticator. This is 2 factor authentication that is required to access Oregon

## Mobile Authenticator Setup

You need to set up Mobile Authenticator to activate your account.

1. Install one of the following applications on your mobile:

- FreeOTP
- Google Authenticator

2. Open the application and scan the barcode:

[Unable to scan?](#)

3. Enter the one-time code provided by the application and click Submit to finish the setup.

Provide a Device Name to help you manage your OTP devices.

One-time code\*

Device Name

Submit

Follow the steps to setup the 2 factor authentication

Once you are complete you can set your new password

## Update password

You need to change your password.

New Password

.....

Confirm password

.....

Submit

Once you login with your username and password you will be asked to provide the security code form the Google Authenticator application.

## 2-Step Verification

To get your security code, go to the Google Authenticator app

Enter the security code
