

Site redirection has been found. Do I need to do anything?

rdavis@foregenix.com - 2020-05-14 - Comments (0) - FGX Web Lite

This depends if the redirection is valid or not. If your site is being redirected to a site that you do not recognise then you should resolve it.

You should check with your web developers to confirm this is a legitimate redirect. If it is not your web developers should investigate the cause of the redirect.
