

What are the benefits of signing up for FGX-Lite / Website Security Health Check?

rdavis@foregenix.com - 2020-05-14 - Comments (0) - FGX Web Lite

FGX-Web Lite is the most cost effective website security solution in the market. Our website threat detection technology is constantly updated by our Threat Intelligence Group, enabling us to look for the most current threats to eCommerce sites.

With a daily scan report delivered to your inbox, you'll be able to act quickly when a vulnerability is detected.

FGX-Web Lite comes with a Breach Protection Warranty. This means that if your website gets hacked, you'll be able to use the warranty to cover a Forensic investigation and any related fees. Terms and Conditions apply.
