

What information will the card scanner for files provide?

rdavis@foregenix.com - 2019-05-02 - Comments (0) - File System

Once the credit card scanner for files has completed a scan and discovered credit card numbers it will report back to dashboard with its results. You will be able to see what file FGX-Web identified to contain unprotected credit card numbers, the location of that file as well as a total of how many card numbers were found.
